

FILTERCOR Carbon Cartridges

Style ME

Economical Carbon Cartridge

Features

- Economically Priced
- Sediment and Taste/Odor/Chlorine Filtration
- Available in Three Sizes
- Nominal 5 Micron Filtration

The FilterCor style ME carbon cartridge is your solution for filtration of potable water. The carbon-impregnated cellulose is given increased strength and dirt-holding capacity by its polyester reinforced backing and external netting. Economically priced, it is well suited for both sediment filtration and taste/odor reduction. The dual benefit of this cartridge is in its ability to successfully filter out fine particles, while simultaneously reducing the presence of any undesirable tastes, odors, and chlorine.

Specifications

Construction Powdered carbon-impregnated cellulose
 PVC plastisol end caps
 Polypropylene core
 Polyethylene netting

Temperature Range 40° - 125°F (4.4° - 52°C)

	Dimensions	Chlorine Reduction	Recommended Max. Flow Rate
FCC-MC1 1/2	4 7/8 in. x 2 1/2 in. (124 mm x 64 mm)	> 1000 gallons @ 1 gpm	2.5 gpm / 3 psi
FCC-MC1	9 3/4 in. x 2 1/2 in. (248 mm x 64 mm)	> 3000 gallons @ 1 gpm	5 gpm / 4 psi
FCC-MC1 BB	9 3/4 in. x 4 1/2 in. (248 mm x 114 mm)	>15,000 gallons @ 4 gpm	8 gpm / 5 psi

Warning: • Do not use where water is microbiologically unsafe or with unknown quality without adequate disinfection before or after the system.

Note: • A drinking water cartridge may contain carbon fines. After installation, flush the cartridge for 5 minutes to remove fines before using the water.
 • It is recommended that you run the tap for 20 seconds prior to using the water for drinking or cooking purposes.
